GET \$50

Once we've picked up your
old refrigerator or freezer to
be responsibly recycled

SAVE UP TO \$150

On your electric bill by unplugging
your old appliance

Efficiency Smart's Appliance Recycling initiative is one of several energy efficiency services offered to your community in partnership with your municipal electric utility. Appliance recycling is funded on a first-come first-served basis until funding is exhausted. Refrigerators and freezers turned in for recycling must be in working (cooling) order, 10 to 30 cubic feet, owned by the customer of a participating utility, and picked up from the residential address listed on the billing account. Three units max per customer, per year. Other restrictions may apply. For more information, visit www.efficiencysmart.org
